<p>I object to this planning mainly for the ecological impact. The surveys carried out are out of date, there are now barn owls, kingfishers, otters..... that live and breed in this area. This has not been taken into account. Neither has the devastating impact that this sight would have on 2 ancient woodlands, which once damaged, csn never be repaired.</p> <p>Also i object to such a large residential area being added to the locality, when the road infrastructure is already struggling. Adding increased traffic will have a negative impact on peoples commuting times and also an increase in pollution, the health and well-being of local residents has not been accounted for, and such a large development as this will negativity impact the air quality and people's heath.</p>
