Subject: 2020/60/92331/E land East of Leeds Road, Chidswell, Shawcross, Dewsbury.

To whom it may concern

I am writing to express my objections to the application above.

I have known this area for many years, and previously lived in Shawcross myself.

My family and I, strongly object to the interference and destruction of wildlife habitat, the ancient and irreplaceable woodlands, and the loss of a major piece of agricultural land.

Over many years, the area has been home to amazingly diverse wildlife populations, from deer to badgers, kingfishers to otters, and from kites to barn owls, to name a few.

Our ancient woodlands are of great and significant importance to the area, and once felled, we will never get back. The trees speak a language our ancestors could hear. Nature, where it is impacting nothing and nobody, and also helping the earth by neutralising carbon etc...should 100% be left alone.

My AuDHD son, loves watching the wildlife. Please leave the area alone.

I understand that both the Wildlife and Woodland Trusts, have thus far objected to the site, and I am adding my voice to theirs. Find suitable brown sites to renovate. Leave our natural, green and beautiful spaces alone.

Regards
