Dear Sir / Madam

With regards to the above planning application , I wish to add my objection to this development, which I am sure you are aware has been strongly objected to by the local community

My own objections are :

- 1) How does pouring thousands of tonnes of cement and concrete help with the councils, and the government's net zero commitments?
- 2) loss of green belt , and spaces , which in my own have helped me with the serenity , and variety of species in and accessible semi urban setting .
- 3)this development will destroy ancient woodland and cause fragmentation of habitat , for which i believe contains some threatened species , which were not contained in the original survey which is now out of date
- 4) how does the largest single loss of agricultural land in Dewsbury benefit the community ?

These are just a few of objections on environmental grounds , let alone pressure on local services , traffic , and pollution etc

Yours sincerely
