<p>We have limited green areas in our local area and this would destroy a much loved and popular area for people to walk. It would destroy natural habitats for wildlife. It will make traffic much busier in an already busy place, causing congestion and unsafe emissions.</p> <p>The privacy of houses already built will be taken away along with the views of greenbelt which is a reason many of my neighbours purchased their properties.</p> <p>The fields are so much better for the environment and for health and wellbeing, we dont want to be surrounded by a concrete jungle. There will be increased noise pollution. We should be protecting what limited green space we have. Why not turn old disused mills and buildings in to housing instead of our lovely green spaces.</p>
