<p>There has already been much development around the surrounding areas connected to the A653 / A650 routes. The schools and medical centres are already full,. Vast increases in the volume of traffic, additonal air pollution. Many minor roads and routes connecting these proposed sites are used as rat runs endangering lives. The recently imposed 20 miles per hour around school areas, does little to prevent this and any Motorway accidents (M1 / M62 ) just adds to the misery. Green Belt land should be kept as buffer zones and green lungs and existing brown belt sites should be utilised instead.</p>
