<p>i object to the planning and building of the new estate on our green belt land, due to our schools, medical services and emergency services already overstretched and could not cope with potential numbers of people it would generate. Also the children and futre generations that are already here will be subjected to even more air polution that extra traffic, domestic and industrial vehicles will bring. Destroying our wonderful greenbelt is despicable, we have alot of people arpund this area that love to go for walks and take their children to teach them about nature, how can they do that when it is all destroyed and adding to the problems we all ready have and the strain we already have on essential services?</p>
