<p>My injections are almost all all the so called "valid planning matters"</p> <p>The roads are already clogged, even if each household has 1 car, the roads cannot cope with at least a other 1,300 vehicles not to mention yet more commercial vehicles. Green space in the are is already limited and this development will destroy the green space along with all the wildlife contained within it.</p> <p>Schools and services are already at capacity. Where will thus extra capacity come from? Where are the plans for that?</p> <p>This development will fracture community and result in a noisy, polluted, urban sprawl with consistently gridlocked roads. No place for me to raise my son.</p> <p>If this development goes ahead, I will be forced to move my family elsewhere and I would imagine many will follow.</p>
