<p>This is the last remaining green area within miles. The only green space for use for the thousands of local residents. Schools, Medical Care, traffic and general well being of local residents would all be negatively impacted as a result of this development. To even contemplate this development is incredible, to think the Church of England are pushing this agenda is utterly disappointing. The resulting adverse effects as a result of this development would be felt by Leeds City Council and Wakefield Metropolitan Council, not Kirklees as the land is on the very extremities of Kirklees. This absolutely should not go ahead as the benefits do not outweigh the risks.</p>
