<p>It is my understanding that if land is allocated in the Sap plan that it stands and only if the land is replaced else where in the local area can it possibly be considered. As the land as I believe is green belt, then it has to make certain criteria to be built on such as housing for disabled or such like, this I understand would still meet the requirements to be replaced in the area.</p> <p>I understand that this is not so in this application and therefore should be taken to the planning appeal to be heard,</p> <p>The implication of this planning application would impact on the local road network, loss of trees, wildlife, to local wildlife. The impact is vast and not in line with planning policy.</p>
