<p>It is disgraceful that such an application can be given an opportunity to destroy nature and the habitats of many animals. Not only is this home to nature but the trees support a more eco friendly environment with less pollution! And implementation of buildings and businesses will only increase pollution! This area is also a place in which people can go to walk/run/explore which helps with supporting good mental health, something which is in demand right now! I say NO to this development plan!</p>
