<p>I object to this development because as a country we need to preserve our green belt and save the habitats of so many British mammals. A recent report published by the Mammal society demonstrates a bleak future for British wildlife and it is due to developments like this that intrude on green space that is causing our wildlife is suffering, not just in this area but all over our country. It needs to stop. We are already being subjected to the biggest deforestation project since WW1 due to HS2, all green belt must be protected for nature and future generations.</p>
