Address of the site or building:	Land east of, Leeds Road, Chidswell, Shaw Cross, Dewsbury
Postcode:	

## User comments

Type of comment: An objection
<p>The roads (especially Leeds rd, high street Hanging Heaton &amp; the Shaw Cross area congested enough at peak times. I have to queue to get out of high st onto leeds rd already. One incident and the whole of leeds rd is snarled up for hours. Each house these days has 2 cars. Therefore the affect of this should be measured by no. of dwellings x 2. The impact on local roads and environment will be too great. local residents health and well-being will be greatly reduced.</p> <p>The destruction of the landscape and trees will mean less natural anti pollution affect at the same time as increasing traffic.</p> <p>We have many indiginous animals such as foxes, Badgers and bird life that will lose their natural habitat! Their numbers will decrease and they will suffer harmful deaths.</p> <p>The appeal of the area will drastically reduce and therefore current property values will decrease. So a financial impact to local residents too who are already struggling to cope.</p> <p>Why isn't more consideration given to brown belt land less than 2 miles away in the saville town area mill st east or west?</p> <p>Once this last bit of green belt in the area is built on it will be gone for ever hardly a plan for the future with the health of local residents in mind.</p> <p>Profit should not be the first consideration but the future of the area and the health of the current residents and local wild life and preservation of the fauna.</p>
