What is the application for?:	Outline planning application for demolition of existing dwellings and developmen
Address of the site or building:	Land east of, Leeds Road, Chidswell, Shaw Cross, Dewsbury
Postcode:	

User comments

Type of comment: An objection
<p>I am objecting to the extra traffic that will use the A653 which is already a very busy road and all the pollution both air and noise this will create. This road is already very difficult and dangerous to cross as a pedestrian and is also dangerous when pulling in and out of driveways. There is usually an extremely long line of queuing traffic most evenings during rush hour driving towards Dewsbury. This vehicle idling is obviously causing huge amounts of air pollution, threatening the health and life expectancy of residents and placing extra stress on the NHS. The footpaths on Leeds Road are so narrow that it already feels unsafe walking next to such a busy road, a road which will undoubtedly become even busier.</p> <p>It is inconceivable that you would consider destroying our precious green area which is well used by walkers and families. Green spaces have been highlighted as critical assets to a community by Public Health England as they provide a wide range of benefits including improved mental health and well being, a boost to the immune system, improved physical activity and reduce the risk of chronic diseases such as asthma and heart disease,</p> <p>Therefore, as a local resident living on Leeds Road, it is wholly unpleasant living on a main road with the only benefit being the close access to beautiful green areas which are an invaluable asset to Kirklees. All efforts should surely be focussed on renovating brown field sites.</p>
