What is the application for?:	Outline planning application for demolition of existing dwellings and developmen
Address of the site or building:	Land east of, Leeds Road, Chidswell, Shaw Cross, Dewsbury
Postcode:	

User comments

Type of comment: An objection
<p>As a mother of a child who suffers from asthma, I am extremely concerned about the increase in pollution that will be caused by this development. Leeds Road is bad enough. The volume of traffic that we already have is making me considering moving home and this is the final straw. The council has already failed in its responsibility to address the pollution issues caused by this road, along with a failure to address the speeding issues that have caused a number of accidents since we moved here. More users on this road will create more accidents. To consider, not only allowing private dwellings, but employment sites, which by their very nature are not pleasant to look at, is irresponsible and shows a lack of consideration for residents in my view. We have beautiful fields and woodland currently, and this will be replaced potentially with warehouses and lorries coming in and out. Who would be happy with that situation? As a family, we enjoy a walk every evening on this green land that Kirklees council are planning to destroy. To think this will be taken, is really upsetting. Along with many other residents, we have invested money into our property and for what? Who will want to buy it once this development has taken place?</p> <p>I'm sure there are industrial areas that could be selected for this type of development that wouldn't cause so much devastation to the local area. This needs to be reconsidered; I can't speak strongly enough! Stop ruining our green areas. Think of your current residents and their health and well being.</p>
