The proposal to build so many houses in this area is just to meet targets.

The area cannot cope with existing traffic let alone more. Chidswell Lane will become a rat run to avoid traffic and possible put lives at risk.

The schools/doctors surgeries will not cope with the increased population and there is no plans to increase these facilities.

Houses should not be built on green belt land. We will lose the sense of communities as areas emerge. It is also important to have green space land for the health of people to exercise and get some fresh air. This will be lost and the extra fumes from vehicles harm everybodys health.
