<p>I totally oppose this development on greenfield site, due to the need to retain open space for public health, the environment, and wildlife. Kirklees planning has an obligation to maintain the physical and psychological well being of the population in the area. This piece of land is vital for maintaining this. the effect on the landscape and character of the area is devastating, the traffic created will negatively impact on the environment and the local neighbourhood, this area is important for conservation and maintaining a healthy environments.</p>
