Subject: Planning application 2020/92331
Date: 26 August 2020 16:24:34

With respect to the above I would wish to object to the application.

1. Loss of much needed agricultural land. We are exhorted by the Government to eat home grown food rather than increase the risk of global warming by importing from abroad.
2. The increase in residential dwellings and associated industrial schemes could result in another 2000 cars using the, at times, crowded roadways.
3. Loss of amenities. The area is crisscrossed by numerous footpaths as designated on ordnance survey maps for the area. This provides a sanctuary for inhabitants.
4. A development of this size will, I feel sure, impact on the local wildlife.
5. Taking into account the size of this redevelopment within the are it will not be long before all neighbouring towns and cities merge. I am sure it is not beyond the wit of man to limit such projects to existing brown field sites within the area - there are many.

Regards
