What is the application for?:	Outline planning application for demolition of existing dwellings and developmen
Address of the site or building:	Land east of, Leeds Road, Chidswell, Shaw Cross, Dewsbury
Postcode:	

User comments

Type of comment: An objection
<p>I strongly disagree on this planning permission. The road is already busy enough without putting more cars in the area. Also I would like to be able to get off my drive safely without any other vehicle shooting past and smashing into the back of me. I enjoy looking out of my bedroom window to see the beautiful green fields which brings lots of sunlight into our family home. I do not want to open my curtains to see lots of houses which is covering up this amazing view. I enjoy walking my dog in this area where there is less pollution, more wildlife and my dog gets to run freely and I and others are able to do their daily exercise in without having to walk on the side of the road which is more polluted and the noise of cars is so much louder. I feel it would make the air more unsafe and their would potential be a lot more house breaking and cars pinched. By doing this it will devalue all the other houses. People how have lived here for ages are now going to have to sell up because, you are planning this development. Nobody will then buy them houses because nobody wants to buy a house too on look your development. We don't have enough green land as it is so what makes you think it is acceptable to build that on there. The children have no where to play and they cause mischief instead and this is the reason why. We purposely moved into this area to help with our mental health so us as a family of 5 are able to go for walks and engage with each other. Why fix something that isn't broken just leave us as we are. Do not disturb our wildlife and green land. Why not look into fixing all the boarded up council houses and make some use of them so people can move into them. Make them areas more clean, tidy and safer.</p>
