| <p>This would be terrible for the whole community with a negative impact with increased pollution and traffic. This space is much loved and used by the whole community for children to explore the out doors with safe walking away from roads, popular for walking and running. The view would be spoilt it would be another industrial blot on the landscape. It is an amazing green space which needs to be conserved for the use of the community as a whole to be enjoyed not to be used for greed and profit. Don't put profit before people. The health and well being of the people of the community is much more import. For people who do not have big gardens and do not get the chance to go into the countryside this space is on our doorsteps. We shouldn't have to drive to get to green space.</p> |
