Planning application ref 2020/92331 ✓
Planning application ref 2020/92350

I am objecting to the extensive planning application for the land East of Leeds Road, Chidswell, Shaw cross, Dewsbury.

I use the footpaths through this area almost every day. I walk them for my physical and mental wellbeing however, . Not only is it a more direct route than road walking it is important for me to avoid the traffic which exacerbates . It also which in turn reduces pollution.

For the reasons above the footpaths that lead from West Ardsley to Gawthorpe, Batley and Shaw Cross are a essential to me. They have been walked by locals for many generations.

The development would have a detrimental effect on the environment with the loss of valuable farming land, wildlife habitat and increased pollution and congestion from increased traffic.

The loss of this beautiful, peaceful area which provides so much in terms of valuable land for production of crops, easy and pollution free access for walkers and unique wildlife habitats would be an absolute tradgedy.
