What is the application for?:	Outline planning application for demolition of existing dwellings and developmen
Address of the site or building:	Land east of, Leeds Road, Chidswell, Shaw Cross, Dewsbury
Postcode:	

User comments

Type of comment: An objection
<p>Whilst the council are considering granting planning permission for this site, could I just ask do they take into consideration other planning permissions already granted within the immediate area:</p> <p>2016/93929 - Amberwood Chase - 206 dwellings - granted (currently building) 2018/94189 - Soothill Lane - 366 dwellings - granted (not yet started) 2019/92787 - Chidswell - 280 dwellings - granted (not yet started) 2019/91476 - Rumble Road - 149 dwellings - granted (currently building)</p> <p>Having already granted permission for 1001 new dwellings, can this area really accommodate another 1354 against this application & also 181 against 2020/92350 Heybeck Lane, thereby potentially granting permission for 2536 dwellings within 1-1.5 mile radius !!! All this and we haven't even gone down the route of the industrial/commercial development within this application, and also the new builds on the Wakefield Council boundary to Chidswell.</p> <p>With many households these days owning 2-3 cars this equates to the possibility of approx 6500 additional vehicles joining the main Leeds Road area, this without taking into consideration the commercial vehicles - can you honestly say that air & noise pollution, traffic congestion & safety etc will not be an issue in an area that is already to capacity, saturated with vehicles and residents, accommodate this vast amount of planning.</p> <p>This area of greenbelt has been a godsend to the local residents and others especially throughout this Covid-19 era. It has been a lifeline to so many being able to enjoy walks without endangering others, breathing in the fresh air whilst taking in the beauty of the area, seeing wildlife, farmers growing their crops, ploughing their fields - earning a living. Teaching our children the wonders of wildlife on our doorstep in an area that is classed as deprived, watching the fly around on an evening or the during the day. Granting planning permission for this site would be an atrocity to the area becoming more like London, concrete city, where children may never see or enjoy actual wildlife. Where is all the wildlife going to go, where are we going to grow crops to feed the livestock & us for that matter. We want keep the conservation of the natural environment now and for years to come.</p>
