5-09-2020

To Matthias Franklin,

I am writing to you with serious concerns about the proposed development east of Leeds road & Clidowell Shaw Cross

I have a list of concerns which includes the following —

The loss of wild life & protection of ancient woods and hedgerows

The loss of green belt land which I cannot understand, when the prime minister is saying it should be protected at all costs and build on brown field sites

How on earth will we cope with the volume of traffic which at times is dreadful anyway, Clidowell Lane is already used as a race track

— the the on board dimensions however

I have lived in Cledwell since I was 11yr old I am now 78yr. old I have seen many awful changes in this time - I wonder what else you can do to ruin it!!!

The proposal entry from Cledwell June - I tried to warn of the serious problems this will cause.

I have already have difficulty getting out of my drive at peak times

There are too many proposed developments projects in north east Kentless. Wouldn't it be better to develop Dewsbury town center <sup>Just!</sup>

<sup>please</sup> I beg you to reconsider the proposal plan. Once this is done the land is gone forever. We really should be preserving our precious green belt land

also will the coal be extracted or remain in situ as per 203-206

Yours Faithfully
