What is the application for?:	Outline planning application for demolition of existing dwellings and developmen
Address of the site or building:	Land east of, Leeds Road, Chidswell, Shaw Cross, Dewsbury
Postcode:	

User comments

Type of comment: An objection
<p>I and my family have serious objections to this planning application why hasn't this been halted earlier as this is unjustified urban creep. We already have within the Kirklees area a vast amount of commercial properties either vacant or in disrepair not alone the houses that are unoccupied.</p> <p>We use the open space and surrounding public footpaths through the fields everyday as part of our health and well being and to think that this space is going to be destroyed is unjust and unnecessary when in current times.</p> <p>The increase in traffic is going to be horrendous as encouraged by councils and government but this experience will not only be a greater risk for them but also the pollution will increase so what should be a walk to positively increase their health and well being will be on the other hand with traffic fumes etc.</p> <p>The wind and flooding within the immediate area would need significant modelling and analysis to ensure that the buildings do not create wind tunnels due the winds in this area and that the flooding that occurs will be analysed.</p> <p>The Kirklees planning department recently labelled a historic importance and now you are contemplating putting an entrance to the commercial part of the proposed development directly opposite when their is a dual carriageway on the far side of the development that leads straight onto the M1.</p> <p>I think the negatives of this development far out weigh the positives for the world we are living in right now.</p>
