All the above title references/ 2020/60/92331/E

I have enjoyed the openness of the Green Field , with its beautiful walks, woods and wild life. I am sure many people have and still will be complaining about Kirklees wanting to take away this piece of WEST YORKSHIRE and replacing it with houses, schools and commercial units.

We all know that this area CANNOT cope with more traffic along our roads. An increase will just bring more chaos and pollution along with danger to the overloaded road system.

With the COVID 19 virus still with us and looking like it is in no sign of a retreat. The government are locking us down with little hope of any chance of getting back to normal. Should we not be looking to give people a bit of HOPE AND JOY by keeping these areas safe and OPEN where we can get a bit of freedom and fresh air. It will also help us all keep our moral and sanity safe.

I know we need more housing and development BUT can we not RE-DEVELOP the unattractive areas rather than taking away some of the BETTER areas in Kirklees.

I am sure other letters will go into more details, bringing up issues about certain wildlife and plant life that is going to be affected.

If Sir David Attenborough lived on Chidswell Lane I bet you would get a letter from him.

I would like to think that this letter has not fallen on deaf ears and will no doubt be put with the thousands of others.

Regards
