<p>The space is surrounded by houses as it is. The new housing would be on greenbelt which i find totally unacceptable. This is space that should be protected forever. Climate change is a massive issue at the moment. Clearing greenbelt is not the way forward and sets a dangerous precedent for other areas of so called protected land. Schools and infrastructure cannot support more houses around that area. People have to have nearby greenspaces especially in the current climate, aside everything else it supporta peoples mental wellbeing which is of paramount importance at this time. Taking away ancient woodland and fields is criminal. Please for the sake of the community and the environment, do not allow this application.</p>
