<p>I strongly object to the planning application for over 1,300 dwelling. The road structures alone in this area cannot cope with the amount of traffic and this extra capacity would impact greatly on highway safety.</p> <p>This application will also have a massive effect on the landscape and wide-life in this area resulting in a large area of green belt/natural habitats being destroyed. Previous planning applications have already been rejected due a number of these factors.</p> <p>The above application will also take most of the farm land from 2 farms resulting in less crop production and less food production for the country.</p> <p>There are also a number of other housing development which are currently under development around this area which have also destroyed a number of wide-life/agricultural areas.</p> <p>Please do not include my address in this objection.</p>
