<p>The suggested site doesn't have space to absorb more traffic. There are new builds already approved in the area which will increase traffic on thr road. This development will put additonal traffic which the road infrastructure is not able to absorb. Also this development will add HGV traffic to the local area which poses further danger. Furthermore, there is no space available in the GP suregeries. Adding 1000+ dwellings will increase pressure on such services.</p>
