<p>I object on a number of reasons -</p> <p>This development will have a huge affect on the local area changing it beyond recognition. This whole area is being over-developed with the public being sold the unrealistic idea of it regenerating Dewsbury. The area is already struggling with a huge traffic problem, congestion, noise and pollution not to mention a huge loss of green breathing space if this development goes ahead. This is particularly upsetting when all around the area are derelict pieces of land and buildings which could be utilised.</p> <p>The loss of land for agriculture is an issue - we need to be more self sufficient and use our agriculture land efficiently, this has featured widely in the media given the problems we are facing at present - we cannot afford to lose this important area of agricultural land.</p> <p>There are two beautiful ancient woodlands on this site which will be affected by this destructive application not to mention the various wildlife species which inhabit the area. Another issue which is featuring widely in the media - protection of trees and more increased tree planting required.</p> <p>The affect on the mental health of the people will be significant, this open space provides so much health benefits for the many local people using it. With the loss of this beautiful space the area will become just one large housing estate with no natural breathing space.</p> <p>There have been many objections to this plan all which have been ignored, I believe profit is being put before the welfare of the local community and driven forward by people who do not live in the area so therefore will not be affected and have to live with this decision.</p>
