---

I wish to register my objection to the above plans to build on this site.

Reasons:

We have enough problems with traffic in this area (with new builds also being built nearly adjacent)

It will have a devastating affect on environment and the wildlife we have become used to seeing in the fields you will be building on

Doctors surgeries, high schools etc are all struggling to cope with the numbers they are having to deal with and a project of this size will put immense pressure on all local services.

This to me is all about how much money can be made once again not taking into consideration the devastation it will cause to residents, wildlife and all the other things it will destroy along the way
