<p>I feel that the land is better served as agricultural land, more so now due to the war in Ukraine.</p> <p>*Permanent displacement of endangered species, on our walks we spot skylarks, red kites, yellow hammer and at dusk bats flying in our garden, barn owls and kingfisher by the stream.</p> <p>*WT Ecologists comments have been ignored regarding biodiversity.</p> <p>* These changes to land have a major impact on climate change which is currently uppermost for our children and grandchildren's future.</p> <p>*Loss of local amenities, we regularly walk in this area which has a great benefit to one's mental health.</p> <p>*Damage to the woodlands and the habitants within.</p> <p>The existing infrastructure in this area is already overloaded, eg schools, G surgeries etc.</p> <p>Existing roads are busy 24/7.</p> <p>The church is not thinking about the people in the community and have ignored many items that have been raised, due to their greed.</p> <p>If these fields were to go, they would be gone forever- never again a source of food for our own country and never again the home of all the wild life that currently flourishes there.</p>
