<p>I need to inform you of my objection to this proposal.</p> <p>The loss of agriculture land throughout our area is a crime. This is prime agricultural land.</p> <p>The ecological impact would be catastrophic for the area.</p> <p>The impact on surrounding roads would bring the main Leeds Road to a virtual standstill. This road is already over used and there are lots of traffic jams already.</p> <p>There as been numerous accidents on this road and any further traffic would have a massive impact.</p> <p>The wild life in the area will be severely impacted. Due to other building work in the surrounding areas the wildlife would be driven from the area. The planners have not registered the amount of various species that inhabit this area.</p> <p>The water course will be polluted by any development and could never recover.</p> <p>The surrounding developments in this area are too many already and the infrastructure in this area will not cope prior to another development being approved.</p> <p>This is not a case of not in my backyard. It is a case of far too many new developments in a small area and the council needs to take this into account.</p>
