I am writing to strongly object to the horrendous site you are planning on Chidswell. This huge site is unnecessary it will destroy natural habitat of deer, owls and the beautiful kingfishers including many other wild animals. Leeds road is already busy enough and dangerous with all the loonatic high speed drivers, new entrances will cause chaos, some mornings it takes me ages to get out of my drive to go to work. There are many brownfield sites around Dewsbury that could be used, so many derelict buildings that could be regenerated. Sometime some things are more important than what the greedy council want!!! Save our green belt.
