<p>This application should be rejected on many grounds, loss of wildlife habitat, loss of farmland to produce food for an already overpopulated country, loss of greenbelt between kirklees and wakefield districts, 20 years of noise and pollution and congested roads that cannot take any more traffic, a prime example being the ongoing building site on the land at windsor road and owl lane and the chaos it has caused on those roads already. Kirklees council should never have approved that development either. Other reasons being there are still so many brownfield sites that should be redeveloped first, plus why build more warehouses and factories when so many buildings and shops are empty?</p>
