<p>This development should not be allowed on the basis that it will destroy forever green land, fields, tress and natural habitat that wild animals have lived in for hundreds if not thousands of years. Furthermore, the traffic and pollution that this development will generate will swamp the surrounding areas forever. There is no need for further development of green space in this area which creates a natural barrier between differing areas and provides a clear green space for people and wildlife to enjoy. You the planners and the developers have no idea what kind of wildlife you are destroying if this development is allowed to proceed.</p>
