<p>To whom it may concern, I strongly object to this outrageous development My first issue being an environmental one the area at chidswell is one of the only green spaces so far untouched by the developers, it is an home to an abundance of wildlife, the area in fact was described by the Eric pickles on a visit as one of outstanding natural beauty Secondly and probably my biggest concern is the impact on the roads , this development would bring, you only need to look at Leeds road and owl lane on a morning or on a evening especially to see they are already gridlocked, imagine all the extra cars thousands of new homes will bring, also lorry upon lorry will have to try to use the roads to gain access to the proposed new industrial unit's, there have numerous serious accidents on Leeds road in the last 12 months, it doesn't bear thinking about one of these happening when children were being dropped off at the proposed new infant school which will inevitably bring scores of cars on the road in a morning and evening . I brought the traffic issue up years ago at one of the first meetings for this development to be told by someone from the council not to worry because they would improve local public transport, at the time I thought it was a daft statement now I find it mind blowing, There may be a need for new homes but I am still convinced there are brownfield sites to be used, as well as old buildings, Also there are many empty industrial units in the area Finally I'm sad and ashamed that some of councillors representing this area and probably live in this area haven't done more to oppose this Many thanks Kind regards</p>
