<p>I object to the loss of more agricultural land and green space in an area where it is much needed - now more than ever for the preservation of quality of life. I object to the additional pressure the development will place on the local roads, schools, infrastructure and other amenities. I object to the design of the properties that will likely be built on the site - overpriced, bland, 'toy town' style properties. I believe all developments on greenbelt/green space sites should now be stopped - there are many brownfield sites available and many more will become available as a result of the economical effect of the current crisis.</p> <p>Developments such as this are ruining our environment.</p>
