<p>I am a local resident to the proposed development and I strongly object to the proposed development for the following reasons.</p> <ol style="list-style-type: none">1. The lose of such a large area of farm land would negatively impact the country as a whole as current events in the Ukraine show how we need to protect are own food production as we cannot depend on other nations to produce are food.2. As the world is on a tipping point with global warming, building over a massive area of carbon capturing environment is a catastrophic mistake and if allowed to go ahead cannot be reversed.3. The massive loss of habitat for wild life for a multitude of animals, birds, bats and insects. These animals cannot move on as there is no other land for them to move on to.4. The lose of a god given right to have open, green, unspoilt land to walk in, enjoy and exerise. This is a mental health issue which people and my self NEED this green space and the nature as a necessity. Taking this land away from the people who need it will negatively impact people's lives which cannot happen.
