Subject: Objection to a Planning Application
Date: 23 November 2022 10:59:15

To Mathias Franklin, Head of Planning and Development

Dear Sir

I object to Planning Application 2020/92331. My reasons are:

1. Loss of Green Belt Land.

The current Government's Manifesto pledges that Green Belt Land will be preserved; by planning for development to be sited on Brown Belt land. This is because Green Belt Land has a social and environmental value, which was evident from the recent pandemic, when many more people turned to the Countryside for relief from stressful lives. I don't accept justifications by Local Councils for overriding this manifesto promise.

2. Loss of prime agricultural land

In view of the UK leaving the EU, recent supply chain shortages due to Global issues such as the pandemic and Russia's war in Ukraine, food price have risen markedly. Surely, we should be planning for self-sufficiency in feeding ourselves. We will come to regret the loss of vast tracts of prime agricultural land.

3. Traffic Congestion

The roads in the Shaw Cross area are already stationary at rush hour periods due to volume of traffic. The roads cannot possibly accommodate the volume of traffic which would be created by the proposed development.

Yours,
