Subject: Objection - Application no. 2020/92331
Date: 24 November 2022 10:02:17

To whom it may concern,

I would like to submit my objection to the planning application 2020/92331. My reasons include the devastation impact this will have on local wildlife, and in turn the well-being of people living in the area. There is a great diversity of species living on the site, including deer, hedgehogs, kingfishers, red kites, foxes and bats, not to mention the impact on pollinating insects on removing such a large area of green space. Walks around the area have a positive impact on the mental health of those living here and will be a great loss if the plans go ahead.

Traffic along Owl Lane and Leeds Road is already horrendous during rush hour; with the addition of the huge number of extra homes, many of which will be two-car households, the traffic situation will be ridiculous, not to mention the additional pollution created by the crawling cars. This will have a significant detrimental effect on the health of those living in the area.

Yours sincerely,
