If the planning application is successful, I am concerned about the loss of agricultural land, woods and fields which in turn will have an impact on not only the people who already live in the area but also on climate change which we are all told to think about more. I appreciate that it is planned for a new school to be built but will it be enough as there aren't enough schools for children already with expanding class sizes and also there aren't enough GP's in the area to cover the extra households.
