<p>The development will detract from the green buffer zone between Leeds and Dewsbury.</p> <p>The area provides fantastic rural walks through natural ancient woodlands helping improve mental wellbeing for people of the surrounding area. The development would negatively impact this.</p> <p>The area offers natural habitats to a range of wildlife including Barn Owl, Little Owl, Bats, Heron and King Fisher which use the stream and water courses and woods / hedges that run through the area which would be affected by such a development.</p> <p>The additional traffic and strain on local resources would add to the already congested roads, oversubscribed schools and Doctors Surgeries.</p> <p>Consideration needs to be given to all local developments from Wakefield and Leeds as this development sits on a convergence point to other authorities. There is already the 299 houses to Haigh Moor Road in Tingley, a housing development between Owl Land and Windsor Road, Chidswell and large development off High Street, Hanging Heaton all currently in construction.</p> <p>Given the above I strongly object to the development.</p>
