<p>The road infrastructure surrounding this planned development would not cope with the enormous amt of traffic it would create. Air pollution would be affected, wildlife/loss of it, as your taking away natural habitats for a great number of animals. We currently travel to and from work via this area and already from the 2 new small builds already progressing the traffic flow/congestion is noticeable and with a macdonalds now approved I'm greatly concerned with the affects this is going to have on the local area. Monies would be better spent developing older houses and old mills within the area without taking away our much loved green land that is slowly depleting who wants to live in a concrete jungle!!!</p>
