Subject: Plan ref Chidswell 2020:92331 and Heybeck 2020/92350
Date: 24 November 2022 15:53:52

Dear planning team

I am writing to object to the proposed developments referred to above.

My reasons for objecting are listed below:

Loss of habitat of endangered species with no possible mitigation due to the size of the development. Including a failure to record some protected species, for example Red Kite and Bats, both we see regularly.

The net loss in biodiversity- that appears to be being ignored or white washed and the impact on Climate Change

Finally the loss of greenspace and the positive benefits to our mental and physical health that can't be overlooked
