I wish to object to your intention to bypass your own planning committee. It is vital that this application is brought back to the strategic planning committee. I also feel strongly that Dum and Dogloitch Ancient Woodlands are not appropriate sites to offset damage caused by the development. Both are established ecosystems and unique, irreplaceable habitats. The Church Commissioners' Agents have already decimated two 120+ year old oak trees and felled a suspected bat roost last time they decided to 'improve' Dum Wood. These habitats need to be protected. I also wish to object on the development of houses and other developments on this green belt land. There is already too much traffic on Leeds Road which is frequently backed up from Heybeck Lane to Shaw Cross. As well as we need to have some countryside left in this county for people to stay healthy and have quiet places to walk and enjoy. The views from our homes will be lost forever as will the enjoyment of seeing the many wildlife that are in the fields and visit us from the woods.
