I object to the aforementioned project as this has been rushed through yet again by the council with a short window after the decision was quashed already. The traffic and congestion in the area is already abysmal at busy periods, let alone adding to the congestion issues with 181 dwellings. The services provided in the surrounding areas are already limited as it is, what are your plans? Will you be building more surgeries and dentists and to cover the families that move into these homes? Most likely not. We will see a rise in waiting times for appointments and less choice of schools for children. You are claiming to be working with the Church Commisioners to oversee the welfare of the surrounding landscape yet these are some of the few areas of greenland left in the direct vicinity, not to mention the local wildlife that will be disturbed by this project. How will you remedy these damages to the land and welfare of the areas? How will you deal with the rising demand on public services?
