### Land South of Heybeck Lane

Dear Sirs,

As a local resident, I would like to strongly object to the planning application for the development of 181 dwellings.

The ancient woodlands of Dum and Dogloitch are not appropriate sites to offset damage caused by the development. The extensive wildlife that uses these woods require the land around for hunting and feeding. The development would simply erase the majority of the wildlife that reside in these areas and be gone forever. The area offers local residents the opportunity to be outdoors in perfect countryside without having to drive to an open space, once this has gone, the green spaces will be lost. This is a local space where we take our young children for family walks who enjoy exploring in the woods and walking in open countryside. This should be brought before Strategic Planning Committee.

Regards
