Subject: HEYBECK OBJECTION

Dear council,

I am emailing you with my upmost objection to the planning application that has once been rejected on heybeck, because your website is utterly useless and no wonder people don't have the right to object through a service that doesn't function correctly!!

To try and fast track this once objected application without much prior notice is firstly a disgrace, showing the absolute corruption that is filtering down from the top!! Being more housing and destroying more green areas in such a lovely area is becoming unnecessary, especially without adequate services being added to the community. The Doctors are working on ridiculous dates to be seen, months in advance, the schools are full, there's no plans for anything to be added to aid the ever growing population of the area due to new housing.

On a side note of personal frustration, I'm sick to death of the lack of care from local authorities all the way to the top, of people lining one another's pockets, all with pound signs in their eyes with nothing else in mind for the local area and its inhabitants!! Does Snod's have any pride or care anymore?

I'd like to think this may fall onto someone with some form of conscience, but it is probably wasted. But in the event it does, start and take care of our area and its people, and stop capitalising on money that can be made just to spend it wastefully on things that don't help any of us.

I'm a 38 year old man who has lived and grown up in this area all my life, and plan to live here for much longer, but it is the surrounding fields etc that keep me here, the more of those you get rid of, the more likely I am to move away.

Kind Regards
