I am emailing with a complete objection and disgusted with the kirklees Council trying to over turn the development in the land behind my house on heybeck lane. The kirklees Council are a disgrace . We have lived at 75 heybeck lane for over 10 years attended the objection meeting at the rugby ground invited the council to our property to observe the wild life bats, owls, rabbits, woodpeckers and much more ... but never attended... its a absolute disgrace the council is trying to overturn the decision.

I totally object to the decisions the kirklees council trying to do I pay the rates to you listen to your people who pay you and keep the green belt for the next generations.

Not happy what so ever
