Subject: Objection to Planning Application 2020/60/92350/E

Dear Planning Officer,

I'm writing to object to the Heybeck Lane application (2020/60/92350/E).

This development was already quashed once, that should be the end of it!

I'm very worried about the Section 106 agreement. Suggesting that the harm caused by building at Heybeck can somehow be "offset" by work in Dum and Dogloitch Woods is completely wrong. These are ancient, established habitats that can't be replaced. Last time the developers interfered there, they cut down century-old oaks and destroyed a suspected bat roost. That damage can't be undone, and doing more will only make things worse.

On top of this, the extra traffic the development would bring is completely unsustainable. The roads around Heybeck are already heavily congested, traffic on Dewsbury Road is backed up nearly a mile most mornings as it stands. Adding hundreds more cars from a housing estate will make the situation far worse, causing gridlock, air pollution, and real safety concerns for local residents.

This isn't just about houses, it's about the community and the environment we'll be left with afterwards. Once these woods and habitats are gone, they're gone forever.

For these reasons, I want to register my objection to the Heybeck Lane plans. Please make sure this application is taken back to the Strategic Planning Committee and that the woodlands are properly protected.

Yours sincerely
