<p>This site has been strongly rejected by the community who continue to stand for what is RIGHT for the community. This development has no place here, the wildlife, green belt, woods, owls, deers newts etc all homeless. The area is a well used land scape for picnics walks wellbeing mental health. This development would ruin all this. The community has raised a number of valid objections all which Kirklees refuse to accept or acknowledge it is shameless behaviour by the council. Please do not build here. Save our environment. Save our safe space. Save our future land for generations to come. Help the community with cleaner air, somewhere safe and green for those to attend to help with the stresses and mental crisis of today's modern world. Please listen to the thousands of people who this impacts on a negative manner.</p>
